The Johns Hopkins University (JHU) is America’s first research university and home to nine world-class academic divisions plus the Applied Physics Laboratory (APL). Our faculty, technical staff, and students are recognized as being among the nation’s best. Most of JHU’s campuses are located in Baltimore, with the East Baltimore Campus home to the School of Medicine, Bloomberg School of Public Health, and the School of Nursing. The Homewood Campus includes the Whiting School of Engineering (WSE) and Krieger School of Arts & Sciences (KSAS) and comprises 17 departments and over 25 research centers and institutes in the STEM fields. Our graduate program has 13 out of the 17 departments ranked 30 or higher with the Biomedical Engineering Department being ranked first in the nation. Listed below are our Departments and some of the WSE/KSAS research centers and institutes:

- Applied Mathematics & Statistics
- Biology
- Biomedical Engineering
- Biophysics
- Chemistry
- Civil Engineering
- Chemical & Biomolecular Engineering
- Cognitive Science
- Computer Science
- Earth & Planetary Sciences
- Electrical & Computer Engineering
- Environmental Health & Engineering
- Materials Science & Engineering
- Mathematics
- Mechanical Engineering
- Physics & Astronomy
- Psychological & Brain Sciences
- Advanced Mammalian Biomanufacturing Innovation Center
- Center for Imaging Science
- Center for Language & Speech Processing
- Hopkins Extreme Materials Institute
- Institute for Assured Autonomy
- Institute for Computational Medicine
- Institute for Data-Intensive Engineering & Science
- Institute for NanoBioTechnology
- Institute for Quantum Matter
- JHU Information Security Institute
- Krieger Mind/Brain Institute
- Laboratory for Computational Sensing & Robotics
- Malone Center for Engineering & Health
- Mathematical Institute for Data Science
